

ULTIMATE IMPACT

Our new facility will allow for...

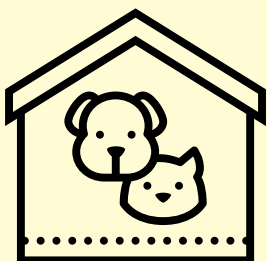

More Vet
Appointments
(For Underdogs/public pets)

Increased Revenue
(Allowing us to hire 3 extra staff members)

We average 10 exam and 13 surgical appointments a day for Underdogs, and 12 exam and 3 surgical appointments for public clients. We estimate we could **double** these numbers in our new facility.

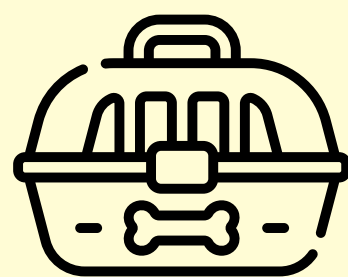

More room
For staff, storage, and a "foster store"

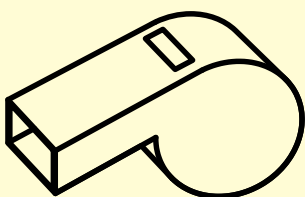

Safer Facilities
Up to date lighting, heating, and air conditioning systems

Stress Reducing
Practices
Reduced noise levels and cats kept separate from dogs

Emergency Shelter
For animals that are returned or removed from a foster home

Training Space
For human and animals alike

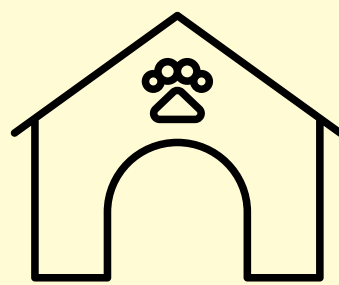

Room for Growth
Ability to develop new programs

Community Impact

Provide more low cost services to those that could not afford vet care

Boarding Services

For fosters who work during the day or are out of town

We are committed to raising **\$500,000** to save more pets!
Will you help us?
